NOTICE:

Trim differences in high-variation Kupay hardwood

Two Shaw introductions made from Kupay hardwood, Helena and Cascade Mountain, feature natural, high-variation colorations that represent an inherent aspect of this exotic hardwood. Colors within individual boards, as well as from board to board, may vary significantly from light to dark.

Since the available trim color may contrast considerably with the plank it is adjacent to, installers should consider the placement of planks to achieve the most acceptable match.

PHOTO OF CONTRASTING PLANK/TRIM

Customers should be advised of this aspect before installation to avoid potential claims. Unless planks are placed to coordinate with the trim, trim color will match the adjacent planks in some areas and contrast with planks in others. Remember that this is simply an inherent feature of this high-variation wood.

THIS IS NOT A DEFECT AND WILL NOT BE A VALID CLAIM.
