 Sustainability Through Innovation™

That's the **Shaw Green Edge** .

# Middleway

## Features

Here's a great engineered alternative where there's concern about the expansion and contraction of 5" solid products. Middleway is a 1/2" x 5" plywood-core oak with a matte finish and rustic grain character with high natural variation.

Middleway showcases six oak colors with random variation for a satisfying visual range—from extreme character, graining, and color motion to a clean, quiet, consistent look. The result is rare beauty in a floor. The six rich colors are Rustic Natural, Saddle, Weathered, Butterscotch, Cherry, and Coffee Bean.

Because Middleway is engineered, it offers numerous benefits:

- Can be installed virtually anywhere—on, above, or below grade in a staple, glue-down, or floating installation method
- Made in the USA in Shaw's state-of-the-art hardwood manufacturing facilities

In addition, Shaw buys from suppliers who practice managed forestry techniques.

## Colors

143 Rustic Natural

401 Saddle

543 Weathered

609 Gunstock

947 Cherry

958 Coffee Bean

## Specifications

Style	HW489
Thickness	1/2"
Width	5"
Species	Oak
Texture	Smooth
Gloss Level	20%
Janka Hardness Rating	1610
Edge Description	Beveled
End Description	Beveled

\*Cartons may include random lengths

This Shaw hardwood is warranted that the face surface of this product will not peel off or wear through for 50 years from the date of purchase.

This hardwood is rated High color and character variation with distinguishable color variation within each box. It is **imperative** that hardwood planks from various cartons be continually blended during installation to insure optimum appearance.

This Shaw hardwood can be installed above, on or below ground level.

This Shaw hardwood is approved for installation over water type radiant heated subfloors only when using floating installation.

This product features ScufResist™ PLATINUM – Shaw's extremely wear resistant UV cured polyurethane finish with Aluminum Oxide designed to help resist household scuffing on hardwood floors.

This Shaw hardwood meets the GREENGUARD indoor air quality requirements and is GREENGUARD Certified.

This Shaw product is Made in the U.S.A.
