Manitoba

Features

With Manitoba, we took one of our best-selling handscraped visuals and created a variation in mixed widths: 3", 5", and 7", all packed in the same box. This results in an easier, less confusing mixed installation; more even color across the installation; and a cohesive, consistent, designer look.

A hand-scraped Epic hardwood, Manitoba brings your customers the industry's top-selling scraping and chatter techniques and the most desired species: hickory. The trendy mixed widths give a custom look and make a bold statement on the floor.

- Multi-step staining process: emphasizes highlights and looks hand-rubbed
- 4 popular, proven colors
- Matte gloss: looks beautiful; accents grain, stain, and scraping
- This Shaw product can be installed above, on or below ground level
