 Sustainability Through Innovation™

That's the **Shaw Green Edge** .

Color shown is 235 Snow Shoe

Cypress Mountain

Features

Cypress Mountain brings you the beauties of birch in unique and leading-edge colors— they're becoming greyer, blacker, more charcoal.

Birch is especially beautiful in these colors. It's a wood that's extremely popular in the Northwest and on the West Coast. And greys are predicted to catch on quickly in other regions, too.

Cypress Mountain offers the chic, clean look of smooth wood with a silky, semi-gloss finish. Very tactile, very lustrous looking. The overall effect is sophisticated simplicity—perfect for lofts and contemporary rooms, but equally at home in pared-down traditional spaces that make a dramatic statement.

It's treated with Shaw's own ScufResist™ PLATINUM finish, which provides superior scuff-resistance. While all woods will scratch or dent, this superb finish resists the ordinary marks of daily wear. It makes a floor easy to live with ... and on.

And because Cypress Mountain is engineered, it offers numerous benefits:

- Can be installed on, above, or below grade in a staple, glue-down, or floating installation method
- Made in the USA in Shaw's state-of-the-art hardwood manufacturing facilities

In addition, Shaw buys from suppliers who practice managed forestry techniques.
