Living Heritage | Epic Landscapes engineered

Features

Living Heritage is a new Epic product that brings you heightened authenticity! It combines...

- Epic's new pillowed edge—which gives each plank a more pronounced sculpted or time-worn look
- The linear markings and horizontal chatter of a heavily scraped surface
- Variation in the beveled ends of each plank, caused by the vigorous scraping

The result? A product of rich beauty that replicates the hand-hewn artistry of times gone by.

By adding the pronounced pillowed edges to the heavily scraped plank with its beveled ends, it's as if we've taken our best-selling, most desirable surface and put a lovely frame around it.

This fashionably vintage styling offers exciting versatility—Living Heritage works as well in sophisticated, modern interiors as it does in more casual spaces. With its "Restoration Hardware™" look, it's eye-catching in contemporary rooms. And it's warmly appealing in more traditional settings.

Further richness and authenticity are found in the low natural luster of the matte finish, and in the tone-on-tone staining that picks up and highlights the natural character of the wood.
